

## HILLEL ACADEMY INTERNET USE POLICY

### GRADES 2-12

The internet is both of a very useful and potential harmful resource. Our policy dictates that before any student is allowed to utilize the Internet, both parents and student must sign the following agreement.

- Students may access the Internet and e-mail for school related activities under a teacher's supervision only. The Internet may not be used UNDER ANY CIRCUMSTANCES for personal use.
- Students must obey US, state and Torah law while accessing the Internet. Students are responsible for their own user ID. All activity done while using the ID is that student's responsibility.
- Any inappropriate use of the Internet will AUTOMATICALLY be punished by denying the student access to the Internet for the remainder of the school year.

I understand Hillel Academy's policy on Internet use and agree to abide by it.
